

6th – 8th Grade Spanish

Dear Students and Parents;

I am so excited to go on this adventure of learning Spanish this year. I think it is going to be an exciting time where we will all walk away with learning something new.

This year I am going to be challenging the students, and myself, with vocabulary to work on a home, as well as memorizing our co-op's theme verse, Psalm 23, in Spanish. I have attached this semester vocabulary words and the schedule for memorizing the scripture. It is my hope that at the end of the semester our class will be able to share these scriptures with the entire group. I don't desire that the students have mastered all the vocabulary when they come into class the next week. We will be continuously reviewing the vocabulary. I do however want to see effort given to learn the words. This will help the class be more enjoyable for everyone.

To make learning language even more exciting we will be participating in the school store. The students will be able to earn tickets to use at the end of the semester.

While a lot of our focus will be learning basic vocabulary I will also be highlighting different countries, cultures and traditions from central and south America as well as Spain. Since I will be teaching this age group history we will be tying history into our Spanish class as well.
